Berdoll Sawmill & Furniture Co. is a specialty sawmill near Austin, Texas. We produce kiln dried natural edge slabs and native Texas lumber including: Pecan, Mesquite, Texas Walnut, Escarpment Cherry, Oak and others.

We operate two sawmills and two computer controlled kilns that produce flat, properly dried lumber and slabs.

We build one-of-a-kind pieces of furniture, specializing in single slab dining tables, conference tables, mantels, and coffee tables.

We offer woodshop services and custom sawmilling. Our jointer/planer flattens slabs up to 100 inches wide. Whether you need one board or 1,000 board feet, we look forward to working with you.

Brandon, Brandi and Clay Berdoll

Quality woods and customer service
